DRAFT  
22 Apr 63

MEMORANDUM FOR: Director of Central Intelligence  
SUBJECT: Future Housing for Headquarters Elements

1. This memorandum recommends action on the part of the DCI, such recommendation is contained in paragraph 4.
2. There is a need to take early action on construction of additional facilities at the Langley site to satisfy space requirements that will exist for the elements of Headquarters through the 1975 period. This conclusion stems from information obtained from the Public Buildings Service on expected future of some buildings presently occupied by Agency elements, and from the need to relocate Headquarters elements from the Metropolitan area to the Langley site. A summary of the situation on future housing for Agency Headquarters elements is contained in the enclosure.
3. In order to proceed with planning for construction, refinement of requirements, and selection of appropriate sites, \$175,000 is required to support a preliminary planning phase. It is believed that funds in this amount could be provided from the \$1,700,000 remaining in the Headquarters construction funds. It is expected that the requirements for new construction would be briefed for the Bureau of the Budget and/or Congressional Hearings in order to obtain release of these funds for preliminary planning. The enclosure was developed to provide information for such a briefing.
